An invitation

Dear all,

Beyond the Edge, Kolkata (BTE) cordially invites you to its first edition, *Erasure and Resistances*, curated by Oindrilla Maity.

BTE emerges out of the sheer necessity of not only restoring the almost forgotten history and culture of the southern edges of Kolkata—the Haridevpur area, to begin with—and celebrating the local history but also bringing out the rhetorical voice that addresses the urgencies of our time. Built with an emphasis on rigorous research and experimentation, such a model aims to produce meaning and knowledge, disrupting the settled practices of a moribund society.

BTE is, therefore, a precursor of a biennale in the eastern zone of India and is dedicated to the discovery of the truth of art.

Warm regards.

Team BTE
